

Assignment: Find Relevant Stock Footage (Envato)

Idea: Facial Features

Regular mouth taping while sleeping leads to well-defined facial features.

Style: Call-Out W B-Roll

	Script	Copy	Footage	Notes for Production
Hook	VO "400 years ago, people looked like this.. A developed face. A jawline that is visible from Mars."	The Jawline! (with an arrow pointed at the jawline)	Greek Plaster Head Footage	1. Up-Beat Greek-vibe BGM 2. The arrow should feel authentic with the energy of the 'plaster head' in the footage.
Body	VO "But today...around 60% of Americans are Mouth Breathers"	60% - according to a study by Sleep Review.	Silhouette of a walking crowd	1. The '60%' appears in red. 2. BGM transitions to intensify.
	VO "...and they look like this...as if they were born without a jaw."		Recessed Chin-Woman	1. To be shown: Just first 2 secs of the lady with the recessed chin.
	VO "Nose breathing has been shown to improve facial features..."		Nasal Breathing 3D Callback= Chin Transformation	1. Both clips, simultaneously. Divided Vertically.
	VO "But when we are asleep, it is hard to stop the jaw from dropping open."	That means 8 hours of mouth breathing!	A guy mouth breathing while sleeping	1. The copy appears when the VO is about to end.

Close	VO “ Solution? Simply tape your mouth shut with a good, chemical free mouth tape like Respire. Order now to transform your sleep and looks!”	Respire: Enhanced: - Looks - Energy - Immunity - Mood Prevents: - Snoring - Bad Breath	A lady putting on mouth tape	1. Back to an upbeat, reassuring BGM
